

## Snowmobile Safety Training Course Information 2021-2022 Season

MnUSA receives many calls and requests at our membership booths and at the office for information on snowmobile safety training. In addition, we would like to be able to include the information on our web site. MnUSA prepares a schedule of the information received from the clubs and that is used to answer questions and provide contact information at the booths and from the office.

**If you do not want your safety training information put on our web site or distributed on our written schedule, please advise us of that fact when you return the class information to MnUSA.**

Please complete the course information set forth below for each class you are giving and provide it to the MnUSA office by phone, fax, email, or mail. An electronic version of this form can be found on MnUSA's website at <https://mnsnowmobiler.org/clubs/information>

Reflective helmet decals and MnUSA magazines and information are available for distribution at your safety classes. If you would like the materials, please indicate how many you will need for your class.

<b>County:</b>	
<b>City (class location):</b>	
<b>Contact Person(s):</b>	
<b>Phone Number(s):</b>	
<b>Club Name:</b>	
<b>Check one:</b> Traditional Youth Class ____	Youth Online Field Day ____
<b>Class Dates/Month:</b>	

<b>Additional Comments - i.e., whether discounted on-line class licenses are available to your students, etc.:</b>
